DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Cavaness et al.

Cavaness discloses the use of a stringed musical acoustic device having a soundboard made of polycarbonate (column 2, lines 38-40).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cavaness et al in view of Foss, Jr.

Cavaness does not disclose the specific use of a polycarbonate sheet.

Foss, Jr.

Art Unit: 2837

Cavaness Jr. does not specifically disclose the use of a polycarbonate sheet.

Foss, Jr. discloses the use of a musical instrument comprising a polycarbonate sheet (column 2, line 40-45).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the device as disclosed by Cavaness et al with the polycarbonate sheet as taught by Foss, Jr. because Cavaness discloses that the use of polycarbonate is well known in the art.

5. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cavaness et al in view of Cove.

Cavaness does not disclose the use of a guitar body made of rigid foam.

Cove discloses the use a guitar body made of rigid foam.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the device as disclosed by Cavaness et al with the foam as taught by Cove in order to protect the body of the instrument.

5. Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
